## WE HAVE LISTENED TO OUR CUSTOMERS

OUR MOBILE FUEL SYSTEM MAKES IT POSSIBLE TO DELIVER TWO TYPES OF FUEL SIMULTANEOUSLY; DIESEL AND BENZINE.

The connection for the fuel supply is located on the roof of the container, which is opened by means of a slot. The container is provided with fire-resistant material. Special extinguishing equipment is available. The operation of the system can be done by one person.

### Generator 35KVA

It is possible to provide power through a generator for in-house, for example, to facilitate additional amenities as outdoor lighting, billboards and air-conditioning.

THE SYSTEM IS DESIGNED TO BE OPERATIONAL IN AREAS WHERE THERE IS A LACK OF FACILITIES TO DELIVER FUEL

PEOPLE DO NOT NEED TO TRAVEL LONG DISTANCES ANYMORE IN ORDER TO BE ABLE TO BUY THEIR FUEL. WITHIN 30 MINUTES AFTER INSTALLATION, THE PUMP STATION SERVICE IS FULLY OPERATIONAL.

THE SYSTEM WORKS LIKE A REGULAR GAS STATION. ONE CAN EASILY READ THE QUANTITY OF FUEL DELIVERED E.G. PER DAY OR WEEK, TO MAKE A TURNOVER CALCULATION. TIME FOR DELIVERY OF COMPLETE SYSTEM IS THREE MONTHS.

**GHS**

“ The mobile pump station we bought at GHS is the perfect solution for our organization in Ghana. Combinations that are coming and going at our construction sites and mines can be immediately filled up, which we can fully control over at our office. It works very fast and efficient.

In addition, the company advertising on the sides of the mobile fuel station is invaluable. Everyone sees the petrol station on a long distance.

Other companies in the region tank their trucks at our Pumpstation. We will soon consider to buy a new facility to meet to the great demand. The mobile fuel station is really a godsend. ”

Henri Mgombe, Managing Director  
ATT Company, Accra, Ghana

## ORIGINAL NEW DEUTZ ENGINES

For the extraction of gold among others is the deployment of Deutz engines already legendary. Also applicable for use as a shipengine. We supply new engine ex factory at very attractive prices! We have both 4 cylinder and 6 cylinder engines, type 912 and 913.
